

PRESSURE CARE

A Pressure Care Device should help in the maintenance of skin integrity, bed mobility and improvement of existing pressure injuries, as part of a more comprehensive prevention plan.

CliniRest® Range

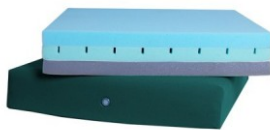

CLINIREST® products have been developed specifically to maximise skin integrity, patient comfort and support.

CLINIREST® Mattress range is available for Frail weight to Bariatric in standard sizes and also Custom made to measure.

CLINIRO Mattress is our custom made Pressure Care mattress with ROHO section inserts for Sacral and or Heel support

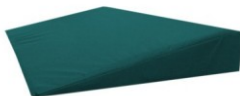

CLINIREST® Seat cushions have 3 layers of high density foams covered with two way stretch, waterproof fabric to provide comfort and support.

CLINIREST® Footrest provides;

- Concave section for calf muscle support
- Foot support
- Zero pressure on heel

CLINIREST® double heel support, designed to elevate heels from mattress surface to assist with pressure reduction.

CLINIREST® Concave single leg support, designed to elevate lower leg from mattress surface to assist with pressure reduction.
